M Street SE Project

NOTICE OF ROAD WORK

Construct Company LLC has been selected to construct the 'M' Street SE Improvement Project (29th Street SE to 37th Street SE). Construction is anticipated to start in early April and should be complete in August (weather permitting). This project will reconstruct the pavement, install curb and gutters on both sides of the street, and install a new storm drainage line on 'M' Street SE from 29th Street SE to 37th Street SE. Additionally, this project will build a new water main on 37th Street SE just east of 'M' Street SE.

The City is dedicated to causing as little impact to you as possible. However, in order to efficiently construct the project the contractor will be allowed to close 'M' Street SE (from 29th Street SE to 37th Street SE) to through traffic for approximately three months. Access to local residents within the project area will be maintained, but delays should be anticipated.

If you live within one block of this project, you will be sent additional notices as the project progresses giving you more detailed information about the road closure (including specific dates). If you live further than one block from this project, more detailed information about the road closure will be posted on the City of Auburn's website located at www.auburnwa.gov/publicworks/capital_projects.asp as it becomes available.

'M' Street SE from 17th Street SE to 21st Street SE will be reconstructed at a later date as part of the City's 'R' Street SE Utility Improvement Project. More information on this project can be found at www.auburnwa.gov/publicworks/capital_projects.asp.

If you have any questions, concerns or need more information, please do not hesitate to contact:

Seth Wickstrom, Project Manager
Office Phone: (253)804-5086
Email: swickstrom@auburnwa.gov

Thank you in advanced for you patience and cooperation associated with this project.
